

STOCK-JUDGING TEAM
WINS FOR MISSOURI

Students of the College of Agriculture Take First at Kansas City.

AWARDS AMOUNT TO \$600.

Universities of Kansas, Iowa and Nebraska Defeated in Annual Contest.

The stock-judging team from the College of Agriculture of the University of Missouri won first prize at the American Royal Live Stock Show in Kansas City Monday. The prizes, which consist of a \$500 loving cup and individual prizes ranging from \$10 to \$50, were won over teams representing the universities of Kansas, Iowa and Nebraska.

The team which won the prizes for Missouri was composed of C. M. Williams, John F. Ryland, L. A. Weaver, H. Hackedorn and B. P. Smoot. Only four won prizes. The individual prizes were won as follows: C. M. Williams, first, \$50; John Ryland, second, \$40; L. A. Weaver, fifth, \$10; and H. Hackedorn, seventh, \$10.

Coached by Prof. Trowbridge. The Missouri team was accompanied by Prof. E. A. Trowbridge, of the animal husbandry department of the College of Agriculture, who coached them.

This is the third year that the University of Missouri has participated in the stock-judging contest at the American Royal Live Stock Show in Kansas City. The Missouri team won second two years ago, and third last year.

How the Teams Ranked.

The stock-judging work consisted of grading horses, mules, cattle, hogs and sheep. A perfect score was 5,200 points. Missouri made 4,202, Iowa 4,114, Kansas 3,982 and Nebraska 3,975. The animals were brought into the stock pavilion and each team judged them. The one making the nearest perfect score was awarded the \$500 trophy cup.

The trophy cup is of silver. It stands upon an ebony base and has a figure of a cow at the top. The handles are two highly polished horns. The cup must be won three years in succession to become the permanent property of any agricultural college.

BOOK ON SOUTHERN ORATORS

Dean Walter Williams One of Editors of a Work Just Issued.

"Eloquent Sons of the South" is the title of a two-volume work just issued by the Chapple Publishing company of Boston. The editors are Clark Howell, of the Atlanta Constitution; John Temple Graves, of the New York Journal, and Dean Walter Williams, of the School of Journalism of the University of Missouri. The work includes selections from the best addresses or writings of the greatest Southern orators. No man now living is included. Selections are given from Patrick Henry, Henry Clay, Thomas Jefferson, James Madison, George Washington, Henry Lee, John C. Calhoun, Jefferson Davis, Robert E. Lee, Sam Houston, Robert H. Hayne, Robert Toombs, Thomas H. Benton, and Henry W. Grady.

FINDS JOBS FOR STUDENTS.

What the Y. M. C. A. Bureau Is Doing This Year.

Out of eighty-three applications for employment filed with the Employment Bureau of the Y. M. C. A., Henry Elliott, assistant secretary, succeeded in placing thirty-three in permanent positions, and distributed eighty-one odd jobs among the remaining fifty.

Furnace attending, table waiting, insurance agency and general housework form the majority of the permanent positions. According to Mr. Elliott, these positions will yield the employed \$2,543 at the end of the year, while a ready \$146.25 has been realized from the temporary jobs.

STATE DAIRY INSPECTOR NAMED

Dr. W. P. Cutler Will Do the Work Without Extra Salary.

Dr. W. P. Cutler, state food and drugs commissioner, has been appointed state dairy inspector by the State Board of Agriculture, without salary. The office was created at the session of the last General Assembly, but no provision was made for a salary. The work is in line with the other duties of Dr. Cutler, and he agreed to accept the office without any extra pay.

It is the duty of the dairy commissioner to inspect dairies and dairy products, and see that no adulterations or impurities are used, and that no milk from diseased cows is sold.

FAIR WEATHER FOR A WHILE.

Rising Temperature Also Included in the Government Forecast.

The government weather forecast for Columbia and vicinity is: "Generally fair tonight and Thursday; rising temperature."

The temperatures today:

7 a.m.	29	11 a.m.	45
8 a.m.	33	12 noon.	54
9 a.m.	35	1 p.m.	51
10 a.m.	40	2 p.m.	53

COUNTRY POPULAR ON HOLIDAY

Many Observe Columbus Day by Hunting Nuts and Apples.

Many students at the University of Missouri took advantage of yesterday's holiday to take trips into the country. Despite the cold and the wind, parties went nutting, persimmon hunting, and apple hunting. Four couples braved the wind to go "picnicking" at Rollins spring.

Many freshmen went out to Balance Rock, Rock Bridge and other places of interest. A number of sophomores walked to Limerick and returned with sacks of walnuts. Another party started out in a spring wagon and returned with the bed full of large walnuts.

"I never saw so many nuts before," said one of the party. "The farmers say it is the best year they ever saw for walnuts."

The juniors and seniors preferred persimmons and apples to nuts. Three juniors laid in a supply of persimmons from the trees along the Ashland gravel road. Two seniors returned from the country with apples which they said they had bought from a farmer.

Nearly all were back in time to witness the Freshmen-Varsity football practice on Rollins Field.

MASS MEETING FOR WOMEN.

Coach Roper or Captain Ristine Will Talk About Football.

Miss Mary Leitch, chairman of the Council of University Women, has called a mass meeting of the women for 10 o'clock tomorrow in the women's parlors. Miss Eva Johnson, acting adviser of women, will speak, but the meeting will be primarily in the interest of football.

W. W. Roper, the coach, or Carl Ristine, the captain, will appeal to the women to support the football team. The campaign for the "Beat-Kansas" club will be discussed.

The women of the University of Missouri are publishing a book of Missouri songs and yells for distribution Friday night at the mass meeting. Miss Frances Smith is the editor.

The song book last year was presented by the Alpha Phi Sigma, but this year it is the work of representatives of all the women, although it was started by the graduates.

Songs adapted by Dr. W. G. Bek and Prof. B. F. Hoffman are in the new collection.

TO ADVERTISE COLUMBIA.

Commercial Club Will Have Illustrated Pamphlet Printed.

To advertise Columbia as a city centrally located as to agricultural and educational opportunities, the Commercial Club is having published an illustrated pamphlet for general distribution. This pamphlet describes the soils in and around Boone County, and also other resources of this section of the state.

A large portion of the pamphlet is to be devoted to the educational advantages and equipment of the different institutions of learning in Columbia. About 150 photographs and drawings will be used as illustrations. The pamphlet will be ready in a month.

WOMAN'S ARM IS BROKEN.

Mrs. Lena Scott Turned too Short and Upset Buggy.

Mrs. Lena Scott, who lives about six miles southwest of Columbia, was thrown from her buggy at 10 o'clock yesterday. Her left arm was broken in two places. The accident occurred on the Rochepore gravel road about four miles west of Columbia. The rig was overturned when Mrs. Scott tried to make too sharp a turn.

New Telephones Installed.

All the subscribers of the Columbia Telephone Company now have their new telephones installed. An entire change has been made in the system since last spring. Now central can be called by lifting the receiver from the hook. Formerly the small crank on the right of the telephone had to be turned.

Elected as Church Delegate.

Miss Constance Latschaw, a junior in the College of Arts and Science of the University of Missouri, was elected a delegate to represent the local Christian Endeavor Society of the First Christian church at the annual convention of the Missouri State Christian Endeavor Union. The convention will be held at St. Joseph October 14 to 17.

THREE TOUCHDOWNS
AGAINST FRESHMEN

No Scores Made on Varsity in 40-minute Scrimmage Yesterday.

TRAINING TABLE CHANGES

Rolla Defeat Raises Hopes of the Tiger Rooters for Easy Victory.

The Tigers succeeded in scoring three touchdowns in the scrimmage against the freshmen yesterday, while the freshmen were unable to score. The scrimmage lasted forty minutes.

Several times the Varsity line showed weak places and the freshmen went through for large gains. Hackney, who was out of the game owing to severe "Charlie horse," was supplanted by Hall, who made large gains around the ends. Mills did the most aggressive work for the freshmen.

Pixlee was out of the game on account of a sprained shoulder. Bluck and Wilder have injured knees. They will probably be in shape for scrimmage today.

Training Table Shake-Up.

Hereafter only twelve men will be kept on the training table. These twelve will be the ones who are playing the best football in games and in practice. The weeding out process began last night when Saunders, Dexter and Bradley were taken off.

The 11-to-10 victory of Central College over Rolla Monday has raised the hopes of the Tiger rooters for a victory over the Miners next Saturday on Rollins Field. Previous to that game there was much doubt as to the result of the forthcoming battle. The victory Rolla wrenched from St. Louis U. made the Missouri men rather doubtful.

Roper Not Satisfied.

While most of the rooters at the University of Missouri are satisfied with the showing the Tigers made against the Kansas Aggies last Saturday, Coach Roper is not. He said they had shown more team work and vim in charging the line at scrimmage than in the last game. He is working to get them all to charge as one man and fall upon the enemy with all their strength.

DOYLE INJURED AT PRACTICE.

Candidate for Guard Position Hurt by Falling on Ball.

Marvin Doyle, a candidate for guard on the Varsity team, was injured in the freshman game yesterday afternoon. In diving for the ball, after making what appeared to be a successful attempt, Doyle rolled over on his head, receiving a severe jolt. He was taken to the Parker Memorial hospital. He was reported to be much better this morning.

Doyle is a junior in the School of Law. His injuries will not keep him from practice more than a few days.

OVERCONFIDENCE LOSES GAME

ROLLA, Mo., Oct. 13.—Central College of Fayette, Mo., defeated the Rolla Miners on the Jackling Field in this city Monday afternoon by the score of 11 to 10. The Miners made two touchdowns in the first half of twenty-five minutes. In the second half the Miners replaced some of their strongest players with substitutes. Central College played her best ball in the last fifteen minutes of play and succeeded in making two touchdowns and kicking one goal. It was a great surprise to the Miners, who were overconfident of victory.

Kansas Will Play Baker Again.

LAWRENCE, Kas., Oct. 13.—For the first time in sixteen years Kansas and Baker universities are to renew hostilities on the gridiron Monday, October 18, at Lawrence. That is the announcement made by Manager Lansdon, but it is the "scrub" team that is to line up against the preachers instead of the best the institution could master at the last encounter. The last game was on McCook Field, October 21, 1893, and the Methodists ran over the K. U. boys for a victory by the score of 14 to 12.

Burriss Is Improving.

The condition of Frank Burriss, the Varsity football player who is ill with pneumonia at the Parker Memorial hospital, was reported improved this morning. He spent a restful night and is feeling much better.

The Salvation Army will hold services at the Methodist church tomorrow evening at 7 o'clock. Street meetings will be held at 3 o'clock in the afternoon and at 6:45 at night. The services will be conducted by Capt. A. B. Sherman, of Boonville, Mo.

MISSOURI WHEAT
IS BEST IN YEARS

On Less Acreage, Yield Is 7,000,000 Bushels More Than in 1908.

FRANKLIN, BANNER COUNTY

It Has Crop of 17 Bushels To Acre—Every Section Shows Increase.

The wheat crop of Missouri this year was 27,502,879 bushels, according to George B. Ellis, of Columbia, secretary of the State Board of Agriculture, who has finished collecting data on the subject. This is an increase of more than 7 million bushels over the year 1908.

The average production of wheat to the acre in the State was 15.27 bushels.

Franklin county is the banner wheat county of the State this year. It raised 1,008,645 bushels on 67,243 acres. Cooper county, which adjoins Boone county on the southwest, had a large yield, making 17 bushels to the acre. A total of 959,140 bushels was raised on 56,420 acres of land.

Every section of the State shows an increase over 1908 both in the total product and the acreage yield. The 1908 crop was 20,684,519 bushels on 1,927,728 acres. This year only 1 4-5 million acres were sown in wheat.

The acreage in Missouri given to the production of oats has decreased from year to year until only 698,653 acres were harvested this year. The yield was 13,808,576 bushels, an increase of 58 per cent. over the previous year.

Northeast Missouri produces more oats than any other section of the State.

FRATERNITY MEN WILL "ROOT"

Pan-Hellenic Conference Determines to Give Tigers Full Support.

That more good rooting shall be done by fraternity men at the football games in the future, was the decision made at the first Pan-Hellenic meeting of the year at the Phi Delta Theta house yesterday morning.

"As was shown by Saturday's game, what we need is a lot of good rooting," said C. A. Rockwood, the representative from the Phi Kappa Psi fraternity, and head yell leader. "And it has been said that the fraternity men are not doing their share of it. I would urge upon all of you to speak to your chapters in regard to this, and see if we cannot remedy the defect."

Plans for a Pan-Hellenic dance to be given at the gymnasium were discussed, but no definite action was taken.

ADAMS FAILED TO DRAW LAND.

Back in College of Agriculture—He Praises the West.

Robert A. Adams returned to Columbia yesterday from Montana, where he failed to draw anything in the recent land lotteries of the Flathead, Spokane, and Coeur D'Alene reservations.

"It's a great country," Mr. Adams said last night. "A man in Spokane, Wash., offered \$100,000 for claim number 1 in the Coeur D'Alene reservation. This, of course, has exceptional water advantages, but it gives an idea of the value of the land. A great deal of the land is poor, but every person that drew a claim considers himself very fortunate."

Mr. Adams is a junior in the College of Agriculture in the University of Missouri.

TOMB AND KEY REORGANIZES

Freshman Inter-Fraternity Elects Officers for the Year.

The Tomb and Key, a freshman inter-fraternity at the University of Missouri, was reorganized for the coming year at a meeting at the Gordon hotel last Monday night. Two freshmen representatives from each fraternity were present and from their number officers were elected. These representatives were chosen by last year's members at a meeting held last week.

The fraternity is for the purpose of promoting good feeling among the freshmen members of the fraternities here. The following fraternities were represented at the meeting: Phi Delta Theta, Sigma Alpha Epsilon, Phi Gamma Delta, Kappa Sigma, Sigma Chi and Delta Tau Delta.

Word was received in Columbia yesterday that James Crockett, a former citizen of Boone County, was burned to death in his home at Peru, Kans. He had two brothers who live at Brown's Station, near Columbia. Mr. Crockett was a native of Boone County, but had lived in Kansas for about twenty-five years. He was 77 years old.

WILL SEE HALLEY'S COMET.

Students in Astronomy to View Curiosity About December 1.

Halley's comet will be visible from the Laws Observatory about December 1. Although it has been seen and photographed at Yerkes and Lick observatories, the telescopes at the University of Missouri are not powerful enough to discern it. The department of astronomy will not carry on a systematic study of the comet, but students in the course will view it merely as a curiosity.

In March, 1910, the comet can be seen without the use of a telescope and about May it will be brilliant. Prof. E. S. Haynes, head of the department of astronomy, does not think it will appear exceptionally brilliant.

"It is not believed," he said, "that it will be so magnificent as the comet was on its previous visits in 1881 and 1848. April 17, 1910, the comet will pass between the earth and the sun. It is quite probable that the earth will pass through the end of the tail. This will not cause any unusual phenomena."

PIRATES WIN FIFTH

Clarke's Men Down Tigers at Pittsburg Today, Score 8 to 4.

PITTSBURG, Oct. 13.—Pittsburg won the fifth game in the world's championship series with Detroit today, score 8 to 4. The Pirates found Donovan's curves for ten hits. Adams, who won the first game for Pittsburg, again proved puzzling to the Detroit sluggers, holding them to six safeties. Detroit made one error and Pittsburg bobbled twice.

The series now stands three games to two in favor of the National League champions. A victory tomorrow would give the Pirates the world's championship.

DR. A. ROSS HILL RETURNS.

University Head Attended Inauguration of President Lowell.

Dr. A. Ross Hill, president of the University of Missouri, has just returned from the East, where he attended the inauguration of President Lowell of Harvard University Tuesday and Wednesday, October 6 and 7, and the National Association of State Universities at Cambridge Friday and Saturday, October 9 and 10. Dr. Hill attended both meetings as a representative of the University of Missouri and at that of the Association of State Universities presented two papers. The subject of one paper was, "How to Make the National Bureau at Washington More Efficient." The other dealt with "The Duty of State Universities to Public High Schools."

While at Harvard Dr. Hill saw a number of alumni of the University of Missouri who are enrolled in the medical and graduate departments.

LIKES ROPER'S METHODS.

"That man Roper is certainly teaching those boys football," said a clerk in a Columbia hardware store yesterday. "Why, they are going to beat Kansas 25 to 0."

A drummer overheard the remark. "Well, if they do, I am going to send Roper a crisp new \$1 bill and my commission besides," he said. "But he's a corker all right. The coaches used to say, 'Come on, boys.' Roper says, 'Get at it'—and usually adds a few stronger words."

Initiation by Phi Delta Phi.

The Phi Delta Phi, an honorary fraternity in the School of Law, held an initiation in its club rooms in the Haden building Tuesday night for the following new members: O. M. Birch, Warren Boles and C. A. Ambriester, from the senior class, and F. C. Wilkinson, E. W. Patterson, P. M. Doyle, J. M. McKinney, Frank Rollins, Dr. D. W. B. Kurtz, P. M. Ditzgen, S. N. Irwin and F. A. Benham, from the junior class.

Prof. Scott to Give Program.

John R. Scott, professor of elocution in the University of Missouri, will give a program of readings at assembly tomorrow morning. The program will consist of "The Capricious Missouri," anonymous; "Our Lady of the Snows," by Robert Louis Stevenson; "The Crating of Edna's Hat," by J. D. Whitney. The program was to have been given Tuesday, but was postponed on account of the holiday.

H. F. Childers, editor of the Free Press at Troy, Mo., visited his son, E. R. Childers, a student in the School of Journalism of the University of Missouri this week. He returned home today. Mr. Childers attended the session of one of the classes in journalism and spoke briefly to the students.

PRESCRIBED WHISKY;
LOSES HIS LICENSE

Dr. Charles Hume's Permit to Practice is Revoked for Fifteen Years.

J. A. STEWART TESTIFIES

Physician Had Previously Been Convicted of Illegal Methods.

The license of Charles Hume, a physician of Columbia, was revoked for fifteen years yesterday by the State Board of Health in Jefferson City. The charge was that of writing liquor prescriptions illegally. Judge J. A. Stewart was the complaining witness.

No defense was made by Dr. Hume, except a petition which was presented asking that his license be not revoked. W. H. Rothwell, a Columbia attorney, formerly city attorney of Columbia, represented Dr. Hume, who was present at the hearing.

The trial was held Monday. F. G. Harris, attorney for the complainants, received a telephone message last night saying that the license had been revoked.

Used Printed Slips.

"It was shown by the evidence that Dr. Hume had been writing liquor prescriptions since Columbia went dry, and latterly writing them at the rate of 2,000 a month," said Mr. Harris. "He had printed slips for the purpose of writing them more conveniently."

Had Been Fined Before.

Dr. Hume has been fined several times in the Boone County Circuit Court for writing liquor prescriptions illegally. He was convicted of writing a prescription for a St. Louis detective brought to Columbia by citizens. On the same day Dr. Hume wrote a prescription in his own name and delivered it to the detective for liquor. He was fined in both instances after trials before Boone County juries.

At first Dr. Hume had his office in the yard at his home, 12 Price Avenue. When the neighbors began to complain at the large number of negroes that went daily to his office Dr. Hume opened an office down town.

This is the second time the Board of Health has cancelled a physician's license in Boone County for writing illegal prescriptions.

Dr. Hume said this morning: "I do not care to give out any statement concerning my case until I have seen my attorney. He is in Sedalia, but will be at home tonight."

\$600 AND COSTS

West End Pharmacy Pleads Guilty to Illegal Selling of Liquor.

W. O. Barrett, proprietor of the West End Pharmacy, was fined \$600 and costs last Saturday for selling liquor without a license. Mr. Barrett was held on two indictments and pleaded guilty to both. He was fined \$300 and costs on each indictment and was informed that he was in the custody of the sheriff until the money should be paid. He paid the fines immediately.

This is the first case of this nature to be brought before the court this term. There are several more liquor selling cases on the docket.

L. T. Searcy, prosecuting attorney of Boone County, refused this morning to give out the names of the persons to whom Barrett sold liquor.

"I don't have to give them out," he said, "and I refuse to."

"Then you absolutely refuse to tell who bought the liquor?" he was asked. "I do. I have a reason. That's all."

Here the interview with Mr. Searcy ended.

The indictments on which Barrett was fined charged Barrett and W. R. Fritz, his clerk, with selling a pint of whisky to E. T. Ballinger, June 20, for 50 cents, and to A. B. Strode, a pint of whisky, June 1, for 50 cents. The cases against Fritz were dismissed. Barrett pleaded guilty.

Mule Barn Case Postponed.

The case of L. A. Weaver, Mary A. Shaw and other property owners, against W. L. Wright, to restrain the latter from building a mule barn on his property at Tenth and Locust streets, has been postponed until Friday at the request of T. T. Simmons, attorney for the defendant. The case was to have been heard last night. Mr. Wright's barn probably will be finished by Friday.
